EDITOR'S RANDOM COMMENTS

The past few years I have been convinced that global warming was a myth as we dealt with colder than normal temperatures even up to this spring – well now we have had several weeks of near or exceeding 30 degrees. While I cannot complain because it is better than negative 30 degrees, I still have a hard time adapting.

Meanwhile we watched Junior Hockey in August!!? (a COVID carryover) – The Canadians managed to outlast the Finns with an exciting game to win gold. At least it primed us for the NHL season with a new look Flames team!

HEALTH AND WELFARE

Linda Barrette celebrated her 70th birthday with a small group of friends at the Mayfair care facility on August 4. She has difficulty seeing and moving but she appreciated the Birthday wishes and the short visit.

On July 4 **Brenda Stout** left this earth. She was the life of the party in our Club and she had Gyro genes with her father, Bruce Poll, being an International Gyro President. A celebration of life was held on

August 19 with many Gyros joining with her and Paul's many friends to remember how amazing she was. We know memories of her will carry on in our Club for as long as we are here.
